RE: EU POP Statement

Statement on Regulation (EU) No 2019/1021 of the European Parliament and of the Council of 20 June 2019 on persistent organic pollutants (POPs Regulation).

Persistent Organic Pollutants (POPs) are organic substances that persist in the environment, accumulate in living organisms, and pose a risk to our health and the environment. They can be transported by air, water, or migratory species across international borders, reaching regions where they have never been produced or used.

Larsen & Shaw Ltd. declares that based on the verified information, and to our best knowledge, our products are in compliance with the POPs Regulation and do not contain substances subject to prohibitions listed in Annex I to Regulation (EU) 2019/1021 and amended 2020/784/EU. We continue to follow the update of the POPs regulation and ensure the conformity of our products.
